

Einladung:

Dear students and emergency medicine fanatics,

we are happy to invite you to the third edition of our "Berlin Emergency Medicine Exchange Program" (BEEP) summer school from 5. - 11. October 2019. We will again offer the opportunity to learn and practice emergency medicine in an international atmosphere, taught by experts.

Interactive lectures and case studies will teach you the necessary theory on principles of emergency medicine, which are then applied in hands-on skills labs. The aim is to gain confidence in various emergency situations and to deepen existing knowledge. Expect working on pre- as well as intrahospital challenges of emergency medicine, ranging from Basic Life Support (BLS) to Advanced Life support (ALS), (Pre)hospital Trauma Life support, wound management, airway management, ECGs in emergency situations, (emergency) sonography, and much more...

All courses are designed for students in the clinical part of their studies (3rd year or higher) and made for beginners in the field of emergency medicine, hence no previous experience with emergency situations is required, but nevertheless desirable.

In 2018 we had participants from 10 different countries. We are again striving to create an international setting to connect with medical students from other faculties.

Find further information on our website: <https://www.beep2019.org/>

If you have any further questions, please do not hesitate to contact us at contact.beep2019@gmail.com

We are looking forward to your application and to get to know you at BEEP 2019.
